Students are accepted only after an audition or the examination of original compositions submitted. The qualifications for audition or examination are given on the following pages.

The applicant is required to fill out an application form and to give in detail all requested information. The application form must be accompanied by a physician's certificate of health, transcript of High School and/or other academic records. An applicant enrolled as a student at another school of music or studying with a private teacher will be considered for an audition or examination only if the application form is accompanied by written permission from the school or teacher.

Requests for the return by mail of personal property that has been submitted with the application form should be accompanied by the necessary postage.

Auditions are scheduled on dates set aside for each subject when faculty members are available, and requests for changes in appointments cannot be considered.

## SCHOOL YEAR 1965-1966

Auditions will be scheduled in March, April and May 1965, for those Departments in which there are vacancies to be filled.

Everyone requesting an audition should send for an application form and *state their major subject*. This application form with supporting documents must be completed and returned *not later than February 15, 1965*.

All communications should be addressed to

The Secretary of Admissions  
The Curtis Institute of Music  
Rittenhouse Square  
Philadelphia, Pennsylvania 19103

ENTRANCE REQUIREMENTS—*Continued*  
*Qualifications for Audition or Examination*

The qualifications for receiving an audition or examination are presented here in a general form, allowing the applicant latitude in the selection of works to be presented. While the choice of composition is important, the manner of performance carries far greater weight.

The final decision as to the suitability of an applicant for acceptance rests upon the evidence of talent shown rather than upon the degree of advancement already attained. Admission is limited to those whose inherent musical gift shows promise of development to a point of professional quality.

Applicants in any subject may be asked to show the degree of their attainments in sight-reading. A supplementary knowledge of the piano, or other medium, and of the theory of music, is desirable.

The auditors are not obliged to hear all that an applicant may have in readiness nor to comply with requests for criticism of applicants not accepted.

## VOICE

Applicants shall submit from memory four selections showing the character, quality, and personality of voice and singer, of which one at least should be in English. They should be chosen from the standard operatic and oratorio recitatives and arias; German Lieder; Italian songs of the Seventeenth and Eighteenth Centuries; French songs (either of the 'Bergerette' type or of the Nineteenth and Twentieth Centuries); English songs of any period which have artistic merit.

Clear diction and accurate pronunciation in one foreign language will be considered of higher value than a casual and inaccurate use of several.
